

2012 INTERNSHIP OPPORTUNITIES

The ITMA Education Foundation's commitment to the industry is once again expressed through our Internship program. We believe that industry specific internships are invaluable. Our committee consists of a healthy mix of industry representation including upper management from our member companies, furniture industry liaisons and studio owners. All full of talent and enthusiasm.

In the summer of 2003 the ITMA Internship Program became a reality. The inaugural program was an east coast swap for our first two interns; one student from RISD interning at Wesley Mancini, Ltd. in Charlotte, NC and a second from NC State University working with Quaker Fabrics in Fall River, Mass. We have since grown in numbers and geographically, with industry partners on the west coast and abroad. Industry partners such as Valdese Weavers and Altizer & Co. are currently supporting Internship programs.

Our goal is to partner as many students as possible, with our ITMA Member company sponsors. Financial assistance may be available through the ITMA Educational Foundation for sponsor companies.

Students applying should be upperclassmen or graduate students who have declared a major in textile design. Most will be paid internships that last for 8 weeks. Other ongoing opportunities may be available during the academic year. Only textile majors will be accepted for internships.

A participation form is included in this packet; please return it to our office, as soon as possible.

School Administrators as well as students may now submit resumes, throughout the year via email which are then posted on the ITMA web site: www.itmashowtime.com ITMA member companies are invited to review these listings when looking for interns, employees or project work.

Feel free to contact the ITMA Office. Via of email, info@itmashowtime.com
or phone, 336.885.6842
